I believe I sold more "Spots" this year than anyone in the country. Seems when any breeder or farmer wants a good pig, they come to Henry. And I've got them here for anyone, anytime.

I STILL SELL ONLY Farmer Type Pigs

I still stick to my idea of a farmer-type hog and bree them that way. By that mean, EASY-FEEDING LOW, THICK WAGON-BOX mean, EASY-FEEDING, LOW, THICK WAGON-BOX type—the kind with heavy hams that mature early to top the market. It's usually hard to find hogs bred like that, but that's what I've got.

PLENTY ON HAND

We have all kinds of breeding stock at all times, If you don't find what you want, write me a letter. Over haif my sales are made by mail, so you don't need to be afraid to trade that way. I ship only the best registered stock that has been vaccinated by recognized veterinaries, and furnish the health certificates and registration papers free. AND I GUARANTEE TO PLEASE YOU OR NO DEAL. I've sold pigs this way by mail for 20 some years now, so you don't need to be afraid to trade.

FIELD'S NEW HEREFORD HOGS

This is probably the look some of you've he the new Hereford Hogs. good—they're the co

ALL-PURPOSE BREED

The Hereford is stealing the show because packers are willing to pay a premium for good Herefords any time since they are a closely coupled, compact, low hog with a maximum of high-priced cuts—loins, bacons and hams. Farmers are sold on them because of the premium and because they go to market early at 5 to 6 mo. Weighing 200-225 lbs. That's the way to make money on hogs.

DESCRIPTION

The Hereford hog is colored just like a Hereford cow—deep cherry red color, white face and feet, white underline and switch. Not leggy of coarse, but refined, quiet, VERY PROLIFIC, and gentie easy keepers. They cross well with all standard breeds especially Hamps—shortening them up, making them lower to the ground, thicker and blockler, and earlier maturing.

HEREFORD SALE, OCT. 17

Big Doings Oct. 17—We're putting up 80 head of Herefords at a big sale which starts promptly at 12 noon back of the seedhouse. There will be a few spots, too, so everybody can get what they want. Be sure to come and bring all your friends. We'll see you get treated well.

H. F.

BEST HERD OF HEREFORDS IN COUNTRY!
Believe I can safely say we have best herd of Herefords in the country. This is one of our herd sows. She's a typical example of what I'm driving at by "wagon-box" type, smooth, compact. Our herd is headed by Mildred's Lad who took 1st at Illinois Swine Show last year. Incidentally we took 19 ribbons out of 26 entries at the Iowa State Fair and 15 ribbons out of 16 at the Nebr. State Fair besides the Jr. Champion Boar. That's a real showing!

HENRY FIELD'S

SEED SENSE

"FOR THE MAN BEHIND THE HOE"

Published by Henry Field in the Print Shop

Vol. XXIV

Shenandoah, Iowa-Sept. 1, 1940

No. 4

How You Can Save \$1 to \$20 Without Trying!

This is a reprint of the editorial I ran last fall in Seed Sense. It stirred up quite a rumpus among some people who are interested in keeping hybrid corn high-priced. Now, I'm against high-priced hybrids and am going to keep ou preaching against their extra-cost, and I'm running this editorial again for the benefit of some of you who maybe didn't see it last year and are still paying \$7 and \$7.50 for hybrid corn. See if you think it's sense or not. H. F.

I never did believe in prices being too low. I always believed in a fair and honest price, good quality, and everybody pleased all the way around.

But when somebody puts a price on something that all farmers need and puts it up sky high, then my dander gets up. And it's up now.

now.

I'm talking about hybrid corn. It's here to stay. It has outperformed other corn, has better yields, stands drought better and everybody is sold on it. But that don't mean producers should get two prices for it just because the farmers need it. No sir.

What I'm getting at is this. You buy hybrid corn from an agent. What does he ask you? \$6? \$7? \$7.50? Or does he go as high as some do and ask \$8? Whatever it is, it's too much. You don't have to pay it, as long as you can still buy your hybrid corn direct from

Henry Field and save for yourself the commission you have to pay the agent for selling you the corn.

Selling by agents naturally is expensive. Agents don't work for nothing. They can't. They get from \$1 to \$3 per bushel for selling you that corn. Think of it! Money that you could save and put in your jeans or in the bank or wherever you put money when you get it ahead.

I've get nothing against a selection of the commission you have to pay

I've got nothing against agents. They're all right if there aren't too many of them, but I have got something against the prices they ask. Selling direct, I can cut out that profit of theirs and give you the corn at what figures out to be about ½ THEIR PRICE. If that isn't a better way to sell, I'll eat my hat.

This fall, I'm going to sell 10,000 bushels of hybrid corn at \$3.95 per bushel—straight out while it lasts, first come first served. And it won't last long at that price, I can promise you. You'll find the whole deal explained on the inside back cover of this Seed Sense, It's a low price, but I'm staying hitched this fall, anyway. And right at the same time, agents are going to be asking you \$7 and \$7.50. Which are you going to pay — high agent prices or \$3.95 a bushel? Buy direct and save—it pays! H. F.

P. S. A good friend of mine just peeked over my shoulder and said, "Henry, you better tone that down a bit. Some agents might yes, yes. Maybe, but I believe I'll leave it just the way it lit.

A Letter From Henrietta

Dear Folks All:%

granDpa said i could wriTe a letter½/ to You insteAd of him WriTing his regular faLl letter, @ You see, I'M learning to typewrite and grandPA said, since I'mm most as good as he Is, and since HE HAD talked too much In this SeedSense anyway., that I was the one To write it#.

I get to sTay with grandmother and grandFather until schoolstarts. I practice typewriting by writing to mOther everY day. I like it here, the seedHouse girlsare so nice to Me@.. I try to type With all my fingers like theyDo.

I helped grandmother CAn Tomatoes .. I washed glasses

andshe dried them; % and I peeled tomatoes, and we put up

15 quarTs yesTerday-*.

I miss 'SuSie', and Elizabeth Rose, and 'luKy', and Mother and DaDDY, but I like it here.

Love/, and kisses;, Henrietta

P. S. FROM GRANDPA: That's about how Henrietta's typing looks in print. We write out the big words for her and she copies them. I'm sure her letter is as good as I would have done and only want to add,

write us a letter now and send those orders in soon.

Plant This Fall—Gain ½ Yrs. Growth. See My Fall Catalog Page 9

Tulip Inspection

This little boy bit off a pretty big job, if he's going to inspect those Henry Field tulips. They're most as big as he is. If I know anything about little boys, he's just about to inspect them piece by piece and there won't be much left. Seems like boys never like to see tulip in one piece. The boy is the grandson of Amelia Catt, Princeton, Ind., but she forgot to tell me the boy's name.

Please Forget Berry Bushes!

I know you want berry bushes this fall—I get 30 or 40 letters a day asking for them. But I honestly don't believe they will transplant to suit you, so I have to tell you to wait until spring. I'm sorry. Would like to supply you and sell them, but don't think it's right. This applies to raspberries, boysenberries, blackberries and the like. Incidentally, I haven't listed Butterfly Bush this fall for the same reason. Much as I would like to sell them, this fall, I have to be sure they will do well for you, before I do.

A Bulb Planting Trick

Here's a bulb planting trick that worked for me and ought to for you. I've always been troubled with moles down at our Missouri cabin so bad I couldn't raise tulips, so when I set my bulbs last fall, I put a small handful of Bug Dust in with each one. There wasn't a bulb bothered by moles this spring where always before I couldn't raise tulips because of them. I use it, too, you know, on and around most of my garden seeds and plants. I find ground squirrels, some ground worms, and other rodents keep their distance when Bug Dust is around. Try it yourself and see if I'm not right.

WANTED: 20,000 Furs!

We want furs. Lots of them. That's why we're again offering the top of the market for those furs, hides and pelts you want to turn into cash.

For years, we've put thousands of additional dollars in the pockets of our raw fur customers and we're going to continue to do it. Our fur department is in charge of experts who are instructed to see that when furs are brought to Henry Field, they get the top of the market.

So send your furs direct to Henry Field or bring them in. Every deal is subject to your satisfaction or there's no trade. That's as fair as it can be, isn't it?

H. F.

NOTE: Price list and shipping tags free on request.

Rock-A-Bye, Baby. On the Tree Top.

Here's the first picture you've ever seen of the baby who went rock-a-bye in the treetop. It's Glenn Dean Johnson, nephew of Wilbur Johnson of Nodaway, Iowa, who sent in this picture. Wilbur doesn't say whether the Glenn Dean just climbed up there and got stuck or whether the tree (from Henry Field's) grew so fast that it caught him napping.

Postoffice Contract Awarded to Henry Field's

I think you folks will be interested for bidders, the government awarded the job of landscaping the postoffice grounds in Shenandoah to Henry Field's and second, they asked that it be planted in the Fall.

Now, the postoffice knows how to buy and they came to Henry Field's for their planting stuff, and their experts know how to plant and they specified FALL PLANTING. So maybe you'll believe me when I say Henry Field's is the place to buy seeds and plants and fall is an ideal time to plant. Maybe Henry is telling the truth after all!

Anyway, we set out over 700 plants in all last fall and everyone lived and is thriving except three and I still think the boys got lazy on those three and didn't set them right. Fall planting pays—try it yourself this fall. H. F.

Attention! Mule-Corn Growers

One good turn deserves another. I put you wise to Mule-Hybrid Corn and now I'm expecting a favor back from you. It won't take you more than a minute or two, but I want you to write and tell me all about your corn—how you came to buy it, how you planted it, how it did for you and how it yielded. I won't feel you've done right until I hear from you, so take the time and write me a letter. Of course, if you're too busy, there's no hard feelings, but I really would like to hear.

Incidentally the low price I've set

Incidentally the low price I've set for fall is another favor from me to you that you won't want to pass up.

Sparrow Trap \$2.95 Postpaid

If you are bothered by sparrows like we are, here's something that will interest you. It's a sparrow trap that does the work quick, easy and safe. We've sold them by the hundreds and my how people praise them. They're the self re-setting type, made of metal to last for years and come complete with instructions for trapping. The picture below will give you a good idea of how they work—price while they last only \$2.95 postpaid.

Sitdown Strike

I'll wager my pocket watch against a used up lead pencil that Jacob Fowler, gets whatever he's firmly insisting on. I can almost hear him clear to here and he lives way down in Jonesboro, Arkansas. His grandmother, Mrs. Susan Jackson of Bogalusa, La., sent this in. She's one of our best Arkansas customers.

Us Poor Folks!

Edna Hollingsworth of Hayesville, Ia., sent this article in with a real nice letter and I got quite a chuckle out of it. Thought you might enjoy reading just how bad off we all are.

Man comes into this world without lis consent and leaves it against his will. During his stay on earth his time is spent in one continuous round of contraries and misunderstandings. In his infancy he is an angel; in his boyhood he is a devil; in his manhood he is anything from a lizard up.

If he raises a family he is a chump. If he raises a check he is a thief and then the law raises him. If he is a poor man, he is a poor manager and sas no sense; if he is rich, he is dishonets but considered smart; if he is a politician he is a grafter and a crook; if he is out of politics, you can't place him, as he is an undesirable citizen; if he goes to church he is a hyporrite, if he stays away from church he is a sinner.

If he donates to foreign missions he does it for show; if he does not, he is stingy and a "tightwad." LIf he dies young there was a great future for him; if he lives to a ripe old age he is in the way; if his property burns and he is insured (in the eyes of the public) he is a rascal and burned out; if he has no insurance, he's a fool for not having it.

Has Rhubarb All Winter

New Mexico farmer wrote in that he has fresh rhubarb all winter by growing it in his basement. It's an idea some of you folks might try. He selects some healthy plants several years old late in the fall after they have been allowed to freeze. Then he packs them in good loose soil, kept soaked. He keeps them in a dark cellar at temperature of about 60 degrees. In a few weeks he has large, pink stalks. He doesn't let sunlight in and puts the plants back in the garden because he uses different ones each year. Sounds good. Haven't tried it myself but thought maybe some of you might want

A Family of Field Boosters!

Here's what I mean when I say I have loyal customers. M. A. Greenlee of Leon, W. Va., wrote when he sent this picture:

"I want to thank you for sending a catalog to each of our married children. They have all sent you orders again this year. We always used your seeds when they were at home and now that they have homes of their own, they still want good seed. We have used your seed for more than 30 years. The picture is of my wife, myself, and the 11 children—7 girls and 4 boys. Six of the girls and one boy married. Rest at home."

Advantages of Fall Planting

Fall planting is rapidly becoming as popular as spring planting. Now that experiment stations all over the country are recommending planting in the fall, more and more folks are setting out what they want at BOTH seasons of the year. Fall has these advantages over spring for planting.

1. Plants have 6 months' head start to become established.

THE ROOTS WILL GROW ALL SIX MONTHS.

2. Fall planted stock gets well established to stand their first

hot, dry summer and have better chances of living through.

3. Fall planted plants BLOOM THE FIRST SPRING, where

some wouldn't if planted in the spring.

Usually, most folks are busy in the spring and don't get time to set stuff in their garden that they should. In fall, mostly they have the time.

Now, if those reasons don't make a believer of you, all I ask you to do is try a few plants this fall and see how much success you are going to have. H. F.

How to Plant in the Fall

There's no mystery about fall planting. It's the same as spring planting except the plants must be mulched. This mulch prevents alternate freezing and thawing which might heave the plants up out of the ground.

All the mulch is, is a covering of leaves and straw or lawn rakings. Don't use leaves alone as they may mat and smother the plants. Most folks mulch their plants anyway, so it's nothing new to you. Here are the directions:

ROSES, SHRUBS, GRAPES, etc. Mound dirt up to cover tops about 8 to 10 in. deep. Then mulch. Uncover early in the spring when danger of frost is over.

OTHER NURSERY STOCK: Mulch well with straw and leaves or manure. Work manure in soil next spring.

PRUNING: LEAVE TOPS ON PLANTS THIS WINTER. Prune severely early next spring, before the plants start new growth—not this fall.

That's not hard, is it? And on top of that, fall planting gives you a head start which almost equals a year over stuff

planted next spring.

4 Hardiest Roses, 98c

EVERYBODY wants the hardiest roses they can get. That's

why this collection has proved so popular.

I took the hardiest red, RED RADIANCE and the hardiest pink, PINK RADIANCE and the hardiest white, WHITE RADIANCE and the hardiest yellow, HENRIETTA

and put them all together in one big collection for 98c. That's less than 25c each (12c each lower than the regular price of 37c) so it's a real bargain. Have 1000 collections ready for the first 1000 orders this fall. Order early. Late orders will have to be held for spring shipment.

Henry Field Perennial Flowers in Illinois Here's what you can have next spring if you get out and plant this fall. No use waiting—fall is ideal with more mois-

ture and cooler weather for the plants getting established. This is part of the beautiful Henry Field garden of Mrs. John Ullrich of Morris, Illinois, who sent picture with her order.

Golden Muscat Bore 1st Year!

If you like to have fruit in a hurry, see what J. T. Alexander got from his Golden Muscat grapes. He bought them from me in 1938 and this picture taken in 1939 shows how loaded down the vines were. You can imagine he's mighty tickled with Field's nursery stock. Those good looking girls peeking through the vine are his daughters—Edna and Dorothy.

I'll Ship Nursery Early

Bulbs, iris, poppies and the like will go out the same day you order them. But with nursery plants, it's different.

Some things like trees, roses, etc., don't go dormant until pretty late and to move them before they are dormant would do you about as much good as planting broomsticks. So on these items, order them NOW, and I'll hold them and ship them at the correct fall planting time in your locality.

Strawberries will be shipped from the middle of September;

on the fruit trees, roses, grapes, shade trees, etc., about October 10. Before that won't do you any good and after that is the ideal time to fall plant. So get those orders in now so I can save stock for you and ship it at the right time.

How to Plant Bulbs

Planting time for tulips, crocus, daffodils and the like waits

for nobody. You plant them this fall or do without them.

Here's a quick easy way to see just how deep and how far apart to plant the different bulbs. Some people dig out whole beds to set the bulbs in and some just dig a hole for each bulb. It makes no difference either way. Both are good.

But it is important to tramp the dirt down well to get rid of all air spaces. Some folks even put a little sand below the bulbs which makes good drainage and helps a lot. If the fall is dry, water the planting some BEFORE frost. Mulch with lawn rakings or straw. After bulbs bloom next spring, allow

the tops to die down, then either dig and store in a dry cool cellar or leave for another year of vear of bloom.

-And All My Friends & Customers-

Subscription Price-A Garden Seed, Field Seed or Nursery Order

Hybrid Price May Be Screwy

Back on page 22 and 23 you'll find my special deal for you folks who book your hybrid corn this fall. Now I had to set that low, early-booking, price clear back in July. You folks know hough that's too early to know how the corn is grown to make the corn of the time way to be seen as going to make—so about Sept. 7, the time you get this Seed

Sense—it may be way too ridiculously low.

If it is, that's just your gain. I'm going to stay hitched whether we have bad corn weather or not, but if the weather is bad, you're going to be big gainers by booking your corn

Incidentally, I want to give you two tips: 1st—Book your corn before Nov. 15, for I'll bet the first 10,000 bu. will be sold by then, and 2nd—if you really want to save money and have perfect corn, you can do it by buying the hill drop grade. It makes the same corn as edge-drop, but is always cheaper. On 5 bu. orders, you save \$5 buy buying hill drop. Think those over—they're good tips.

I Still Want Pictures

I still want those extra snaps of yours—especially of your corn field, picking corn, or corn crib or any snaps of your family, farm, home, yard or whatever you think is interesting. Just like you like to see pictures of what other folks are

doing, they like to see what you are doing.

Now, I can't send the picture back, so send me an extra one, but remember I pay 50c each for the ones used and \$5 for the best one sent in.

Take Advantage of Down Payment Plan

Right now, field seed prices are the lowest they've been in 8 years. It's the time to buy! Prices for spring look 10 to 25% higher.

Now, I know this time of the year folks generally don't have the loose cash to tie up in field seeds, so I'm making IT POSSIBLE FOR YOU TO BUY FOR SPRING AT THESE LOW FALL PRICES.

Pay only 10% down now to bind the deal. I'll book your order and save the seed for you. You can send the balance any time before Feb. 1 and the seed is yours at these low fall prices. Price is guaranteed against decline.

Now, there's the deal. You'll find full details on the back cover, but I want to say right now, you'll be smart to take advantage of it right now early. Last year I think we reserved as much seed in the fall as we sold in the spring and the fall buyers saved many thousands of dollars over what they would have to pay in the spring

- 5 FIELD SEED BARGAINS -

For Delivery Now-or Reserving for Spring

For Delivery Now—SPECIAL FALL PASTURE MIX
Made especially of hardy grasses only for fall sowing. 6 Permanent grasses in just right proportion for all season pasture. 1 Bu. sows 3 to 4 A. alone or 1 hu. to 5 A. if you plan to sow clovers on in the spring. Only 45-lb. bu.

HOME GROWN
BROME GRASS
The hardiest home-grown seed of this famous drought-resisting grass at a price \$3.00 too low.
Makes amazing yields even in driest years. Sow
14 lbs. per A.
alone any time in Sept. or Oct.

Field's Special HOME GROWN

My biggest alfalfa bargain in hardy seed. 98½% pure. High germinating. No noxious weeds. Only \$11.95

RED CLOVER Beautiful seed 97% to 99% pure. Last fall sold for \$10.75. Book quick at this low price. \$7.95

ALL BAGS ARE FREE At Henry Field's

SWEET CLOVER sweet clover 98% pure sweet clover — mixed white and yellow for longer pasturing and good soil-improvement. A steal at this price. Only \$2.95

The Latest Snapshot of Ruth's Family

I've about given up trying to get the entire family together but I can manage to give it to you in sections. This is the latest snap of Ruth and her family which we took on a visit up there to see them this summer. From the left, Susan; Kermit, Ruth's husband, H. F., Elizabeth Rose, Ruth; Henrietta (who came back with us to visit), Big Boy, and Mrs. Field. Big Boy just got started wearing glasses for a while and don't think he likes them.

Sold Neighbors on Mule Hybrid

I think this is one of the biggest reasons for my larg increase in business every year. All my customers do missionary work for me and pass the word around about when the best seeds come from. Just like friend Waite here, wh.

wrote on his order:
"Dear Mr. Field: This makes 25 bu. of Hybrid seed corn I have ordered from you but only 5 bu. for myself and the rest for neighbors who heard of the corn and the good price through our order. They are ordering this number through my suggestion. Thought you would like to know."—E. O. Waite, Crook, Colo.

Buffalo Grass This Fall? Yes!

(The Grass That Needs No Mowing)

To answer hundreds of questions, we will release a little more of our rare stock of Buffalo grass this fall. Orders must be in, however, before Oct. 1. We cannot ship after that date. Please order early and avoid the disappointment some

had this spring.

Buffalo grass, you know, is the marvelous creeping lawn grass that spreads and covers the ground with the most beautiful green carpet you ever saw. It's absolutely drought-resistant and STAYS GREEN ALL SUMMER even when bluegrass is browned up. And best of all, it NEVER GETS TALL ENOUGH TO NEED MOWING, though you can if you wish.

We ship in sod form at the below prices: 1 sq. foot sod (275 plants—enough to plant (200 sq. ft.) \$1. postpaid 2 sq. ft. sod 1.89 postpaid 3 sq. ft. sod 2.69 postpaid shipment.

Now! Buffalo Grass Seed!

It has been almost impossible to harvest Buffalo grass seed until this year, when we were able to get a few pounds, though the harvesting is extremely expensive. We offer it for the 1st time this fall. We have experimented and developed a process of increasing the germination of the seed about 4 times over Nature's method so the seed you get from us is thoroughly processed for quick growth. Seed like any other lawn seed—roll in well. Sow 1 lb. per 1000 sq. ft. for lawn—for field seeding 4 lb. per A. Stand will be thin at first, but will thicken up, and crowd out weeds (if you help it 1st year). Seed very limited. Price while it lasts: ¼ lb. \$1.00; 1 lb. \$3.00 postpaid.

Likes His No. 129 Mule-Hybrid

This is a picture of some of our No. 129 Mule-Hybrid on Ralph Hibbs' farm in Thayer, Kans. He says "This was planted April 2 and picture taken June 2. Everybody sure notices this nice field of corn. It is about again as big as any around here. It has the widest, longest blades and is darkest green. Looks like it will outyield the county. The Rose Moss in the stump was a free packet you sent us with our order some time ago."

He Thought I Had Storied

Dear Mr. Henry Field:

I just received your card stating that you had shipped my 6 bushels of Hybrid Seed Corn No. 129 including other corn and seeds. Of course you have not asked me for any testimonial or I don't write any, but last year your ad said it would make 15 bushels more to the acre than open pollinated on the same ground of which I noticed in an old Seed Sense which I picked up while watching it rain. I just thought I never have caught that old man in a story. I will just try that. If it is half as strong as he says it is it is good enough for me. You stated two men could not pull up one of the stalks so I sent up there and got 2 bushels planted, but got it too thick.

Found Out I Was Right

I figured something would take half of it. Nothing touched it. I had a stalk about every four inches. So I hitched on to a Rotary hoe and tried to tear out about half of it but never saw even one stalk that I had got out. So I got busy at other work and never got to cultivate it but once. Ran over it with a tractor cultivator in ½ day. Never went back to it till shucking time and hired a man to shuck it. We weighed it 75 lbs. per bushel.

Made 71 Bu. Per A.

It made 71 bushel per acre and had went through one high water that washed out a few spots that wasn't figured out. The other corn made 35 bushels that I had been raising so I ordered Mule Hybrid for 2 of my neighbors and 2 more of

them sent in their own order.

I ordered Hegari seed from 3 different seed houses in Iowa 3 years ago. One batch of seed didn't come up at all. The other one had every kind of a seed in you could think of, but Hegari, so I had to order from Henry again and plant the others over. It looked like there was twice as much come up as I planted of that Arizona grown Registered Hegari. Well I expect I have taken up enough of your time.

I buy from Henry Field beause I want to Stay in Business."

C. A. West, Moulton, Iowa

Why Worry?

There are only two reasons for worry.

Either you're successful or you're not successful.

And if you're successful there's nothing to worry about. If you're not successful, there's only two things to worry about—your health is either good, or you're sick.

And if your health is good, there is nothing to worry about, and if you're sick—there's only two things to worry about. You're either going to get well or you are going to die.

If you're going to get well, there's nothing to worry about; if you're not going to get well, there's only two things to worry about. You're either going to Heaven, or you are not.

And if you're going to Heaven, there's nothing to worry about; and if you're going to the other place, you'll be so doggone busy shaking hands with old friends, you won't have time to worry.

From a Field Bred Gilt—4 Prize Winning Pigs

Last spring Bill Stoddard, a young boy six miles west of town, got a bred gilt from us. She had a dandy fine litter—and four of the pigs Bill entered in the Fremont County Achievement show. With these four pigs from one litter, he took first and second prize boar and first and second prize gilt and one GRAND CHAMPION MARKET PIG. Now I call it 'cleaning house' when you can do that from one litter. Bill's proud of them and so am I.

Question and Answer Dept.

Answering your questions about planting is just one of our regular services on top of just selling you seeds and nursery stock. We're glad to do it. Business isn't made up of dollars and cents alone, it's made up of service and that's what we want to give you lots of. Look over the questions and answers below. Maybe yours is answered and if it isn't, you might find some of interest here.—H. F.

Q. Will fall-planted French Lilacs bloom the next spring?

A. Yes. Many are blooming now in the nursery row. There's no waiting for bloom with French Lilacs.

Q. Do Bush Cherries make good jell?

A. Couldn't make better. Especially fine with rhubarb.

Q. I'm moving to a new place. Can I move my roses and fruit trees this fall?

A. Yes. Wait until they shed their leaves and become dormant, then dig with as much dirt as possible and set as soon as you can. Do not expose the roots to air or sunlight.

Q. How early do mums bloom?

A. Believe it or not, our Pink Cushion, Yellow Cushion and Bronze Cushion mums all had blooms on them July 10th. We have especially early-blooming strains. Beware of those strains that wait till frost to bloom.

Q. My roses look like they will open then fail to do so. What's wrong?

A. This is known as sticky bud, and the outside petals just stick together. Only thing to do is to separate the outside petals early as you can.

Q. Some of my fall planted bulbs didn't come up this spring. What's wrong?

A. Probably one of two things. They must have good drainage (if soil is heavy add handful of sand below the bulb when planting) and they must be watered if the fall is dry.

Q. I have been advised to buy only largest pansy plants I can find. Are yours the biggest strain?

A. Absolutely. We have spent hundreds of dollars selecting the best, giant-blooming strains—over 2¾ in. across.

Q. What vines cling well to a brick wall or chimney?

A. Englemans and Boston Ivy. Boston clings a little better, but Englemans is hardier.

When a man wants his handkerchief, he reaches around and yanks it out of his pocket. When a lady wants hers, she rises, shakes herself, and picks it off the floor.

26° Below and Still Laying

Mrs. John Berner, Sr., one of our good customers over at Avoca, Nebr., sent in this picture with her order this spring and said, "Picture of our daughter, Pauline, with one of Henry Field's Leghorn's. When we have zero weather or 26° below, these hens keep right on laying. They don't stop for anything."

Good Breeding Counts

That's just another case to prove that the good breeding behind my chicks pays big dividends. My chicks are hatched with 200 to 300 egg-blood and they are always going to lay more than common chicks under all sorts of conditions. I don't have to tell you folks that it ALWAYS PAYS TO BUY GOOD BREEDING in your livestock—especially when it isn't costing you any more than for common stock.

NOW! HENRY FIELD IS HATCHING CHICKS FOR FALL DELIVERY!

Look at those prices below—in some cases lower than spring prices. But they're for delivery now. Everyone of the 25 varieties listed can be shipped all during the fall, if you get your orders in now. The demand for my chicks has been so heavy, I have had to keep the hatchery running full blast and will have plenty of chicks ready for you.

Fall Chicks Pay

Fall chicks pay big dividends. Because of the cool weather, fall started chicks require less care, less fuel, make cheaper gains AND STILL SELL AT THE TOP OF THE SPRING MARKET BECAUSE THEY'RE EARLY—many times as high as 23c lb. You're bound to make money on that market.

Dor't Let Your Brooder House Stand Idle-Make a Double Profit!

No use letting that brooder house stand idle. The only way to make that equipment pay is to use it. Raising fall chicks brings you back a double profit on that investment.

Orders Booked in Order Received

The only thing I am going to ask you to do is get your orders for fall chicks in early—the earlier the better to avoid any possible disappointment. First orders in get first chance at chicks available the day wanted.

ORDER NOW—FOR SPRING DELIVERY GET 50c PER 100 DISCOUNT ON 3 BEST GRADES

Because orders booked now, for spring delivery, help us plan our hatches, I am willing to give you 50c per 100 discount from the low fall prices below for ordering now for spring delivery. You get all other discounts shown below too. Chicks ordered this way will cost way less than spring-ordered chicks. You know what you want—get it now! DISCOUNT GOOD ON 3 BEST GRADES ONLY—NOT GOOD ON Standard Grade.

These Hybrid Teas
Planted Now—Bloom Next
Summer
IMPORTANT — Fall planted
roses must have winter protection (even ones planted in spring
should have). Mound the earth
up around tops 6 to 8 inches
high after freezing weather starts
and cover the bed'with a heavy
straw mulch. Roses do best in
sunny location away from the
tree roots. .Set 20 inches each
way.

HENRIETTA
"Non-Fade Yellow"
Some yellow roses have tendency to fade. Not Henrietta. It was so beautiful and I liked It so, I named it after my granddaughter. Formerly 49c.

RED RADIANCE

"The Hardiest Red"

The "fool-proof" red rose. Noted for its hard-lness and free-blooming qualities. Will grow anywhere and never seems to

The World's Outstanding Poppy

TULIPS and OTHER FALL BULBS

The Lovely DARWIN TULIPS—Aristocrats of Tulipdom

PRICES

5 for 40c 10 for 69c 25 for \$1.25 100 for \$4.69 Postpaid Please Note: Supplies Are Very Limited—We Will Ship Order in Order They Arrive as Long as Tulips Last—Please Order Early to Avoid Disappointment. Prices: 5 for 40c; 10 for 69e; 25 for \$1.25; 100 for \$4.69, all postpaid.

CLARA BUTT—The most perfect salmon pink.

BLUE AIMABLE—Long stemmed true blue tulip.

INGLESCOMB YELLOW—A bright yellow—very outstanding.

KING HAROLD—Always in our mind the very best of red tulips. Fine for bedding or forcing. Rich red with extra long stems and large flowers.

MRS. THORBECKE—Distinct bright ruby red with long stems.

SCARLET BEAUTY — Probably one of the finest and most unusual red tulips. Lasts a long time.

THE BISHOP—Enormous, bright blueviolet tulip. Heavy petals. Very outstanding. (Generally sold at a higher price than regular Darwins, but we are making them the regular price this year.)

VICTORY—Rich, deep red. Splendid for forcing or bedding.

CITY OF HAARLEM—The tallest bright red tulip. You should have some of these in your garden.

WM. COPELAND—Violet. Excellent for early forcing.

MIXED: ALL VARIETIES AND COLORS ABOVE—10 for 60c; 25 for \$1.10. This is an extra fine mixture assuring you of plenty of all the different colors.

FIELD'S TULIPS SUPPLY SHORT; ORDER EARLY!

Henry Field—One of Few Who Has Tulips for Sale This Fall

The tulip supply all over the United States is extremely short this year. Only a few of the biggest seed houses in the country will be able to supply bulbs and then only in limited quantity.

Henry Field is one of the few who has been able to get tulip bulbs for you. You will notice that even with his big buying power, he was able only to get a comparatively short list of varieties. Supplies of these varieties are very short and everyone is urged, if they want any tulips at all, to get their orders in at once.

Henry Field will ship orders strictly on a first come—first served basis. That's the only way to be fair. It may be years before tulips will again be available. NOW is the time to get them.

FIELD'S TULIPS GUARANTEED TO BLOOM

The picture below represents the actual size and appearance of my tulips. They are the finest in the country and all giant—4 to 6 in. around. ALL ARE ABSOLUTELY GUARANTEED TO BLOOM, TO BE TRUE TO NAME. They will bloom for years and years if planted in rich, well-drained soil.

An actual size photo of Field's Giant Tulip Bulbs. Bigger bulbs mean bigger blooms.

Grow over 3 feet high

CARDINAL MANNING

"The One They Rave About'

This big rich colored tulip always causes exclamations. It grows tall like Louis XIV, but is a brighter rosy violet flushed with bronze. Prices: 5 for 49c; 10 for 89c; 25 for \$1.69. All postpaid.

LOUIS XIV "The Favorite"

This is one of the most lovely of all breeder tulips. Grows over 3 feet in height with a heavy strong stem. Bloom is huge royal purple with heavy shadings of bronze. 5 for 49c; 10 for 39c; 25 for \$1.69. All postpaid.

This unusual collection is the only way you can get many varieties of bulbs this year. We were fortunate to be able to obtain this mixture from a large planting of different varieties that are so rare and scarce this year, that they are not on the market as named varieties.

Collection includes Early Single Tulips, Early Doubles, Breeders, Fantasy, Lily-flowering, Darwins, and Parrots in all colors of the rainbow. They will bloom for you all through the tulip season. With tulips so scarce, this will probably be my most popular offer. Only limited supply.

25 BULBS MIXED VARIETIES \$1.00 postpaid

-ELLEN WILMONT

"The Fragrant Lily-Tulip"

This is the lovely, but unusual Lily-flowering tulip that's fragrant. Its beautiful lemon yellow, long petals turn back gracefully like a lily and then as though that was not enough, it perfumes the air with a delicate sweet scent. Only a few bulbs. Prices: 5 for 49c; 10 for 89c; 25 for \$1.69. All post-paid.

-The Famous

BOUQUET TULIP

"Five Blooms on One Stem"

Think of it! A whole bouquet of tulips from each bulb. Color beautiful white with rose blush. Price: 4 for 25e; 10 for 50e; 25 for 98c, postpaid.

$\frac{1}{2}$ of Rainbow Collection

Postpaid

DAFFODILS and NARCISSUS

SPRING GLORY

"The 2-Color Daffodil"

Everyone loves it. Instead of ail yellow, it has white petais with a yellow trumpet. Forces easily indoors. Nice outdoors.

KING ALFRED

"The Largest of Aii"

This is the glant and favorite of all. It grows the largest, has nicest color and is the one everyone "raves" about. Price; 3 for 25c, 7 for 50c, 15 for 89c, postpaid. postpaid.

LAURENS KOSTER "Many Blooms on One

"Many Blooms on One Stem" (Poetaz)—This is the daffodil with big cluster of tiny blooms on each stem, and to be even nicer, these dainty daffodils are brightly colored—white petals with large orange cup.

PRICES (Except King Alfred) 3 for 19c. 7 for 39c. 20 for 98c

> POSTPAID How to Plant

Plant outdoors now about 6 inches deep and 12 inches apart. They are the first up in the spring.

PHOENIX

"The Long Stemmed Daffodil''

The double Daffodll all frilled and fuli. Immense long stems with rose-like blooms in light yellow.

DAFFODIL COLLECTION: 2 of Each Daffodil Above 39c Postpaid

INDOOR NARCISSUS FOR FORCING

INDOOR NARCISSUS

Force indoors in bowls, filled with pebbles and water or in dirt. Let roots form growing out of light. Then bring into light. Blooms as given in table. 3 bulbs to a pot.

TABLE OF BLOOMING DATES

Plant	Bloom
Oct. 1	Dec. 5
Oct. 15	
Nov. 1	Dec. 25
Nov. 15	Jan. 5

NEW YELLOW NARCISSUS—Soleil D'Or—The Golden Sun. An indoor variety like paper white only yellow with orange cup. New and different. Price: 3 for 30c; 6 for 50c; 12 for 98c; postpaid.

PAPER WHITE NARCISSUS—The old favorite we all know, makes ideal Christmas present. Price: 3 for 15c; 6 for 29c; 12 for 49c; 25 for \$1.00, postpaid.

Narcissus Collection: 4 Yellows and 4 Paper Whites 49c Postpaid

OTHER BULBS

That Bloom in the Spring

GIANT CROCUS

I deal for planting through your lawn, around your shruhbery, and along walks. They increase from year to They increase from year and bloom before the snow melts. Plant 3 inches deep. Choice of two beautiful colors—blue or yellow. Price only 10 for 30c, 25 for 60c, 50 for \$1.00.

GLORY OF THE SNOW (Chionodoxa Luciliae—We have a very limited number of these heautiful hulbs. Deep blue with white centers that bloom so early. We are very fortunate in being able to offer these at 10 for 39c, 25 for 78c, 50 for \$1.39 pustpaid.

GRAPE HYACINTH (Improved Heavenly Blue)—Spike with grape-like blooms in the deep rich blue that's so welcome in early spring. Price: 10 for 25c, 25 for 69c, 50 for \$1.00, postpaid.

SCILLA SIBERICA—Bright Blue Bells in earliest spring. Price: 10 for 35c, 25 for 69c, 50 for \$1.00.

AN EVERGREEN BARGAIN

Here is an ideal "Entrance" planting of evergreens at 1/4 usual price. You get 2 tall pyramidai junipers 1 to 11/2 ft. tall and 2 low growing Spreading Junipers 12 to 15" plants. Ail packed carefully in special moss and postpaid to you. Only \$1.49 shipped at proper planting tlme this fail.

FOR A LAWN LIKE THIS

FIELD'S FAMOUS 20-DAY LAWN MIX AS LOW AS 29c lb. Postpaid

Especially mixed for fall seeding. Quick growing grasses give you lawn right away with selected blue grass seed to come later. Made according to Henry Field's long-famous, secret iawn formula. Guaranteed solid seed—no timothy or other dilutents. Only 39c per ib., 3 lbs. \$1.00, 5 lbs. \$1.49, 10 lbs. \$2.95, aii postpaid.

FIELD'S BLUE GRASS (Straight, Not Mixed)

This is without doubt the best lawn grass for the midwest. Some people ilke to sow it alone and here's the plumpest, highest germinating seed grown for them. All of our own harvest. Absolutely unadulterated. 1 lb. 39c, 3 ibs. \$1.00, 5 ibs. \$1.49, 10 ibs.

FIELD'S SHADE GRASS MIXTURE
Blended especially for those shady spots under trees where
rass won't usually grow. 1 lb. 49c, 3 lbs. \$1.39, 5 lbs. \$2.25, postpaid.

The dwarf, quick-growing clover that puts nltrogen into your soil and feeds your blue grass. Every lawn should have some. 1 lb. 75c, 3 ibs. \$2.15, 5 lbs. \$3.25, 10 lbs. \$5.95, postpaid.

FIELD'S CREEPING BENT

New. drought-resisting bent grass seed. Much superior to old ashloned stolon method of starting bent grass. 1 lb. 98c, 3 lbs. 2.75, 5 lbs. \$4.45, 10 lbs. \$8.50, postpaid.

HOW TO MAKE A LAWN LIKE THIS

Sow from now until Nov. 1. Fall rains work it in the ground and the cool fall weather gives it a better start than it gets spring planted. Use 1 lb. to every 400 sq. feet to thicken up your lawn. Rake good, sow your seed, and then rake it in. Roll with a heavy roller, if you have one, Grass likes a firm seed bed. After a hot summer you'll be surprised what you can do to your lawn with a little seed. See prices to left.

I recommend my "Hurry-Up" 20-day mixture. It's made especially for fall seeding and is faster and generally more satisfactory.

IOWA'S LEADING SEEDHOUSE" SHENANDOAH, IOWA You don't have to use this order sheet. You can order any old way you like and it will look good to me, but this will save us both some bother. NAME. ONLY 50c Bu. DOWN!

This time of the year, most of us farmers are a little short of cash. That's why I'm asking only 50c per bushel down payment to hold your corn for you at these very low opening prices.

Send your reservation now, WITH ONLY 50c per bu, just to bind the bargain on both of us, so I'll stay hitched. Pay the balance just before the corn is shipped. That's fair, isn't it, Tell your friends and neighbors, too.—H. F.

Hili-drop corn is considered even better than edge-drop corn. It's more cold-resistant, it's larger kernel feeds the corn plants better. The trouble is so many farmers have only edge-drop plates, they buy edge-drop and not hill-drop, which makes hill-drop prices stay way down.

The saving on only 1 bu, of hill-drop will buy you new plates and from then on the \$1.20 you save on each bushel of hill-drop is just profit to you. Buy hill-drop this year and save the extra money. H. F.
